Chaves County, New Mexico

Gentlemen:

On January 20, 1972, an inspection was made of the site of the subject plugged and abandoned well. Said inspection revealed the following items which require correction before the plugging report may be approved.

1. All junk must be buried or removed.
2. All pits must be levelled.

Please notify this office when the work has been done so that we may reinspect the location.

Very truly yours,

OIL CONSERVATION COMMISSION
