13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well has been shut-in awaiting an engineering report by Yates Petroleum for a proposed waterflood. Yates has assured Read & Stevens that they are working on the engineering report and that the inclusion of the Sulimar lease in a waterflood in this vicinity is viable. Read & Stevens requests this well be continued in a shut-in status until the Yates engineering study is done.
