U. S. GEOLOGIOAL SURVEY ARTESIA, NEW MEXICO

Propose to use existing roads, county and oil field, and to construct approximately 1000' of new road to the location. No water exists in this area and will have to be trucked in to location. Combustible material will be burned, noncombustible material will be buried with pit filling.

After completion or abandonment, the pit will be filled, the location cleaned, and the area restored, as much as possible, to its original state.
