Roswell, N.M. 88202

Current Status of Wells ☐ Shut-in ☒ Temporarily Abandoned

Date of shut-in or temporary abandonment: Over one year

Date of latest approval of temporary abandonment: July 12, 1985

Time limit of latest approval of temporary abandonment: one year.

Date of last casing test: none

If you want this well to remain in shut-in or temporarily abandoned status please submit to this office the following checked request.

☐ A request (application) for the well to be in temporarily abandoned status. Such an application should show the downhole status and how the well is secured at the surface. The downhole condition shall be such as to prevent damage due to the migration of water and/or hydrocarbons. The application should be made on "Sundry Notices and Reports on Wells" Form 3160-5 (original and 6 copies).

☒ It is determined that because of the age of the wells and/or the length of time the wells have been shut-in or temporarily abandoned the downhole integrity of the well should be tested. This test shall be witnessed by a representative of the BLM and will be completed within 60 days of the date of this letter. Therefore, please submit for approval a program for testing this well. The application should be made on "Sundry Notice and Report on Wells" Form 3160-5. Any well found in an unsatisfactory condition will be corrected or the well plugged and abandoned. If the well is not tested, it will be considered unserviceable and you will be required to plug and abandon the well.

Applications should be made within thirty (30) days from the date of this letter. If there are any questions please contact Peter W. Chester at phone no. 505 - 624 - 1790.

Sincerely yours,

Peter W. Chester
