Gentlemen:

We are returning the enclosed Form C-103 on the subject well for correction and additional information.

Said form shows squeezed perfs from 7914-7979 with 200 sacks, but the only perfs reported are from 7914-45.

Further, according to the scout report, the well was perforated, treated and tested in several zones; and to date, this information has not been submitted.

Please submit Form C-103 reporting all perforations, treating, testing, squeeze jobs, bridge plugs, etc.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,
