Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This test drilled to a TD of 9720'. DST #1 from 9150-9720' recovered 300' of slightly gas cut mud. No water. No oil. We propose to plug and abandon this test as follows:

Cement plugs 9150 - 9300'
6900 - 7050'
5250 - 5400'
4200 - 4300'
2350 - 2450'

We intend to cut 8-5/8" casing at the deepest possible point and retrieve and salvage whatever is possible. Will place a 100' plug over the stub of the 8-5/8"; a 100' plug from 300 - 400' and 20' of cement at surface.

Verbal approval was obtained for this plugging at 4:30 PM 12/19/75.
