Attention: Mr. W. A. Gressett  
Supervisor, District II

Gentlemen:

Pursuant to our telephone conversation in connection with UV Industries, Inc.'s Application to drill the subject well, the following information is furnished:

A. Blowout Preventer Program

1. The drilling rig will be equipped with a 10" - 900, 3,000 psi working pressure, Shaffer Type "SS" blowout preventer with double rams (one blind and one for drill pipe).
2. The blowout preventer will be actuated by a Payne hydraulic closing unit.
3. After setting 8 5/8" casing, the casing and blowout preventer will be tested to 1,000 psi for 30 minutes.
4. The blowout preventer will be operated daily.

Cactus Drilling Company rig No. 64 will drill the well and Cactus is mailing directly to you a schematic diagram of the blowout preventer system to be used.

B. Gas Dedication

The acreage upon which the subject well will be drilled is presently dedicated to a gas purchaser.

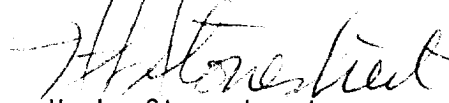

C. Operator of Long Canyon Unit

UV Industries, Inc. has been designated in the Long Canyon Unit as the operator of such unit.
