17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Move in service unit 2/23/78. Pull tbg and run cement retainer and set at 1191'. Pumped 100 sx Class C cement to squeeze off perforations 1250'-1270'. Filled hole w/mud laden fluid. Removed head to check for cement between 5 1/2" & 8-5/8" casing annulus. Found cement at surface by visual inspection. Cement did not circulate when we cemented the 5 1/2" casing but evidently cement came up to the surface. Spotted 10 sx cement plug at surface in 5 1/2" csg. Welded cap on casing and erected P X A marker. Rig released 2/24/78.

Will advise NMOCC when location ready for final inspection.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
