

6-5-80 -

@ 7:11:38 hit very large salt water flow

6-7-80 3:00 PM. I was out there + they had opened rams +
could not close due to rocks in rams.

Water was going about 60' in the air.

6-10-80 9:30 AM. They had new BOP + jlg head on
and as of 7: AM. They were back in the hole
drilling - no problems.
