Re: Mesa St. #1-J  
Sec. 31-15S-28E  
Diamond Mound-Morrow  
Pool

Gentlemen:

There has arisen a need to study the Diamond Mound-Atoka and Morrow gas pools. The reasoning being:

- (1) Complexities in correlation due to the depositional surface and nature of the reservoir.
- (2) Splitting of production history into two pool names based on existing correlations.
- (3) Potential commingling difficulties.
- (4) Operators disagreement on the Morrow and Atoka formation tops.

A feasible solution is:

- (1) Abolish the Diamond Mound-Morrow gas pool.
- (2) Extend the Diamond Mound-Atoka gas pool to include the acreage of said abolished pool.
- (3) Extend the vertical limits of the Diamond Mound-Atoka gas pool to include the Morrow formation. Rename said pool to the Diamond Mound-Atoka/Morrow gas pool.

If you have any questions regarding this matter feel free to contact me at this office.

Sincerely,

*Larry Brooks*  
Larry Brooks  
Geologist
