Re: Marlisue Queen Ut Tr 2 #5 B-24-14S-29E

Gentlemen;

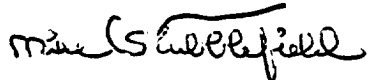

According to our records the above captioned well failed the 1995 Mechanical Integrity test and to date has not been repaired per NMOC regulations.

Underground Injection Control (UIC) regulations require repair work to be completed within 90 days of notification letter which was sent to MNA Enterprises Ltd April 11, 1995.

A recently conducted Bradenhead Survey showed this well to be shut in and still in need of repair.

Please submit, at your earliest convenience, your intentions for bringing this well into compliance.

Yours Truly,

Mike Stubblefield
Deputy Oil & Gas Inspector
