INSTRUCTIONS

*Data form is to be filed with the appropriate local authority and the relevant record is to be made on file after the completion of any newly drilled or deepened well. It shall be secured, indexed by cross-section of stratum, and then carefully examined for the well and formation of all special features conducted, including drill stem tests. All depths indicated shall be measured by hand, in the case of hand-dug wells, and by depth of depth shall also be reported. For example, a well, 100 ft deep, shall be reported as 100 ft deep. The form is to be filed in the appropriate section on state land, where applicable, and in the appropriate section on private land, where applicable. (See also 100 ft deep.)

INDICATE FORMATION TOPS IN CONFORMANCE WITH GEO. PROGRAM SECTION 01.14.11.
