Re: Case 8002, Order R-7422
Marlisue Queen Unit

Dear Mr. Christy:

This is in response to your letter of January 4, 1984, and Mr. Mark McClellan's letter of January 5, 1984.

The proposal to inject into the interval from 1850 feet to 1975 feet in the injection wells authorized by the subject order is an insignificant change from the authorized interval and is approved.

Further, the amendment of well numbers from Tract 2 Well No. 7, 8, and 10 to Tract 2 Well No. 5, 6, and 7, respectively, and from Tract 2 Well No. 9 to Tract 1 Well No. 3 is also approved.

Yours very truly,

JOE D. RAMEY
Director
