17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The Langley Federal #3 is producing from the Morrow formation, 8522'-8570'. The production tests indicate no water production from this zone. If water is produced it will be collected in an open top, 250 barrel, fiberglass tank. If sufficient volume is collected the water will be trucked to a disposal site. We respectfully request approval of this water disposal plan.

I hereby certify that the foregoing is true and correct
