Read & Stevens, Inc. makes application for on lease ROW for the purpose of gas flowline from the subject well proceeding due east approximately 2000' to the Harris Federal #4. The flowline will be 2 7/8" OD steel, which will be coated and laid in a ditch 3' deep, then backfilled. The route of the pipeline has been surveyed by Desert West Archaeological Services, and there were no cultural resource findings. Archaeological clearance for the Read & Stevens, Inc. proposed pipeline was recommended.
