STATE OF NEW MEXICO  
OFFICE OF STATE GEOLOGIST  
SANTA FE, NEW MEXICO

December 21, 1950

Mr. Malcolm Keeble  
District Superintendent  
Magnolia Petroleum Company  
Kermit, Texas

Dear Sir:

We have received your letter of November 29, 1950, with which you enclosed the required C-101, C-102 and C-103 forms on your Headley Federal Well No. 2 (Black Hills Unit).

In answer to your question as to where such forms should be filed: we believe that, since approval of the oil and gas inspector at Hobbs is necessary, it would be best for you to send the forms there. Then, after approval has been given, that office will forward an executed copy to us for our files.

Thank you very much for the log on the Headley Federal Well No. 1 which you sent at the same time.

Very truly yours,

R. R. Spurrier  
Secretary - Director
