Re: Sharp # 1, Sec. 13-17S-26E,  
Eddy County, New Mexico

Dear Sir:

I have written you in regard to a well you drilled in Unit L, of Section 13-17S-26E. The last I heard from you, you said Mr. Owen Haynes was to plug this well soon. I have talked to Owen a number of times about plugging this well. Every time he says he is going to start in a few days but hasn't done anything about plugging it yet.

This well is in the Roswell Artesian water basin and is flowing water part of the time, which is a waste. We must have this well plugged at once.

Very truly yours,

OIL CONSERVATION COMMISSION
