Artesia, New Mexico

Place

July 23, 1942

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

E. Orcutt F.E. Kepple Well No. 1 in NE SW SE
Company or Operator Lease
of Sec. 19, T. 17 S, R. 27 E, N. M. P. M., Red Lakes Field,
Eddy County.

FULL DETAILS OF PROPOSED PLAN OF WORK
FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We plan to plug the above well as follows:

Fill with mud from 602' (T.D.) to 515' and set bridge and cement
plug of 5 sacks; then fill with mud to 75' and set bridge and cement
plug of 5 sacks; then fill with mud to surface and set regulation
marker. There were no shows of oil or gas encountered in the drill-
ing of this well.

Approved July 23, 1942

Title Oil and Gas Inspector

REPORT OF THE AMERICAN MEDICAL ASSOCIATION

The American Medical Association, organized in 1847, is the largest and most influential of the medical organizations in the United States. It is a non-profit corporation, organized for the purpose of promoting the interests of the medical profession and the public. The Association is composed of more than 50,000 members, who are physicians, surgeons, dentists, and other medical practitioners. The Association's headquarters are located in Chicago, Illinois. It has a long and distinguished history, and has played a leading role in the development of the medical profession in the United States.

The Association's primary concern is the promotion of the highest standards of medical practice. It does this through a variety of means, including the publication of the *Journal of the American Medical Association*, the holding of annual meetings, and the establishment of various committees and commissions. The Association also works to improve the medical education of physicians, and to promote the use of scientific methods in medical practice.

The Association's efforts have been instrumental in the development of the medical profession in the United States. It has helped to establish the medical profession as a respected and influential force in society, and has played a leading role in the advancement of medical science and practice.

The Association's work is supported by the contributions of its members, and by the generosity of the public. The Association is grateful for the support of all who have helped it to carry out its mission, and is confident that it will continue to play a leading role in the development of the medical profession in the United States.

The Association's work is a continuous process, and it is always looking for new ways to improve the medical profession and the public. It is confident that it will continue to play a leading role in the development of the medical profession in the United States, and is grateful for the support of all who have helped it to carry out its mission.
