(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Tried to put valve on braden head f/testing - head fell off; ran tubing spear in to pick up on tubing and came out w/5' of casing; dug out around 5 1/2" another 10', casing beat up; ran 1" 60' and milled on solid iron. Called and got verbal approval from Bob Pitschke of the B.L.M. to plug and abandon. Pumped 150 sax Class C cement and ready mixed to surface w/8 yards. Will install dry hole marker. Plan to move 50 - 100' to drill new injection well.
