APPLICATION FOR PERMIT
TO DRILL FOR OIL

(required in artesian underground basins only)

RECEIVED

MAY 1 1960

ARTESIA

Application No. 2-1-133 Book 2-1-2 Date Received APR 28 1960

1. Name of applicant J. E. Jones Drilling Company
 Post Office address Box 1346; City or Town Midland
 County of Midland, State of Texas
2. Well is to be drilled under contract for oil
 (self or company)
 and is to be known as the Federal No. 1-17 well,
3. The well is to be located in the NE/4 $\frac{1}{4}$, NE/4 $\frac{1}{4}$,
 of Section 17, Township 17N, Range 8E, N. M. P. M.
 on land owned by Federal Lands of _____

4. Description of well: Depth to be drilled Devonian at approximately 2500' feet;
 Casing and cementing program as follows:

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	NEW OR USED	DEPTH FEET	HANDED OR CEMENTED	SACKS OF CEMENT
Casing running as follows:						
10" of 12 1/4" to be cemented to surface; approximately 200' 12 1/4"						
Well is to be started with cable tools to look at oil production possibilities in the upper beds. If no oil or water is encountered below the 12 1/4" casing, it will be cemented to surface. If oil or water is encountered below that depth, 8 1/4" casing will be run to approximately 1000' and we will attempt to pull the 12 1/4" casing. In any event, the water production string will be cemented to surface.						
If production is indicated at total depth, 8 1/4" oil string will be run.						

5. Notice of intention (has) (none) been filed with the Oil and Gas Conservation Commission or the U. S. Geological Survey.
6. Conformance bond (has) (none) been filed and approved with the Oil and Gas Conservation Commission.
7. Time required to commence construction _____
 Time required to complete the works approximately 40 days
8. Additional statements or explanations: _____

I, J. E. Jones, being first duly sworn upon my oath, depose and say that I have carefully read the foregoing statement and each and all of the items contained therein, and that the same are true to the best of my knowledge and belief.

J. E. Jones Drilling Company applicantJ. E. Jones
J. E. Jones

Subscribed and sworn to before me this 23rd day of April,
 A. D., 19 60.

Date received corrected _____
 Application received April 28, 1960
 Date returned for correction _____

This application is approved subject to the prior approval of the Oil and Gas Conservation Commission and provided that the applicant complies with all rules and regulations of the State Engineer pertaining to the drilling of wells, and further provided, that casing shall not be run or cemented except in the presence of a representative of the State Engineer's Office.

Works shall be completed and completion or plugging report filed on or before _____
April 30, 1961

This is to certify that I have examined the above application for permit to drill for oil in an artesian underground basin of the State of New Mexico and hereby approve the same subject to the foregoing provisions and conditions.

Witness my hand and seal this 2nd day of May, A. D., 19 60.

S. E. Reynolds
 State Engineer

INSTRUCTIONS

This form shall be executed, preferably typewritten, in triplicate.
 Each of triplicate copies must be properly signed and attested.

A separate application for permit must be filed for each well used.

- Secs. 1-4----Fill out all blanks fully and accurately.
- Sec. 7-----Estimate time reasonably required to commence and to complete project.
- If additional space is necessary, use a separate sheet or sheets and attach securely hereto.
- Drilling shall not commence until approval of the State Engineer is obtained.
- All casing shall be inspected and approved by a representative of the State Engineer before use.
- If well proves to be non-productive the well shall be plugged under the supervision of the State Engineer or his representative.
- Log of well shall be filed with the District Supervisor, Box 810, Roswell, New Mexico, upon completion.
