T. 16 S., R. 27 E.

The elevation of the derrick floor above sea level is 3525 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement-ing points, and all other important proposed work)

4-1/2" casing, 9-1/2# was run to a total depth of 1627 feet with 650 sacks of cement circulated to the surface.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
