NOTICE OF INTENTION TO ABANDON WELL			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. Donald Anderson dated September 13, 1952, 19____
1 ft. from N line and 1675 ft. from E line of sec. 26
27 South 27 East 44 County or Subdivision 1 State or Territory

The elevation of the derrick floor above sea level is 3544 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Well was drilled to 460 and temp. shd. 10/22/52. Well never produced.
 Four inch casing cemented 437 feet with 25 sacks.
 Plugged same back to 400 feet with cement and gravel, shot and tried to
 salvage casing at that point. Wouldn't come, tried again and finally got
 55 feet leaving rest in the hole. Filled hole and set bridge at 55 feet
 and set cement plug. Cemented required marker and cleaned up location.

Lost tower book and cannot furnish well log at this late date.

Well was acidized with 1500 gallons and tested during September 1952.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company R. J. Johnson,
