NOTICE OF INTENTION TO PULL OR ALTER CASING.....	SUPPLEMENTARY WELL HISTORY.....
NOTICE OF INTENTION TO ABANDON WELL.....	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. 2 is located 330 ft. from XNS line and 2310 ft. from E line of sec. 26  
SW+SW+SE 17 South 27 East N.M.P.M.  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Empire W Eddy New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate muddling jobs, cementing points, and all other important proposed work)

I propose to drill a well with cable tools to a depth of 415 feet unless oil and gas in commercial quantities is encountered at a lesser depth.  
All casing set will be cemented by approved methods of the U. S. Geological Survey.  
a 7 inch oil string will be set at 392 feet and cemented with 25 sacks.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
