DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Plan to drill approximately 110'. Set 100' of 7" surface pipe. Cement 400'
of 5 1/2" production pipe and pull 7" pipe.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
