(State or Territory)The elevation of the derrick floor above sea level is **3575** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

TD 1998'

Intend to plug back with mud from 1998' to 1700' and set a 100' cement plug from 1700' to 1600' using 20 sacks of cement. Cement to be placed through tubing.

Will treat open hole through tubing using a formation packer set at about 1530'.

Plan to use lease crude and sand headed by approximately 250 gallons of M S A acid.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Title

Geologist

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud. The document also notes that records should be kept for a sufficient period of time to allow for a thorough review in the event of an audit or investigation.

2. The second part of the document outlines the specific requirements for record-keeping. It states that all transactions must be recorded in a clear and concise manner, and that the records must be accessible to all authorized personnel. The document also requires that records be kept in a secure and confidential manner, and that they be protected from unauthorized access or disclosure.

3. The third part of the document discusses the role of the auditor in the record-keeping process. It states that the auditor is responsible for verifying the accuracy and completeness of the records, and for ensuring that they are maintained in accordance with the applicable standards and regulations. The document also notes that the auditor should be given access to all records and should be able to conduct a thorough review of the system.

4. The fourth part of the document discusses the importance of training and education for all personnel involved in the record-keeping process. It states that all personnel should be trained in the proper methods of record-keeping, and that they should be kept up-to-date on any changes to the standards and regulations. The document also notes that training should be provided to all personnel, regardless of their level of experience or expertise.

5. The fifth part of the document discusses the importance of regular audits and reviews of the record-keeping system. It states that regular audits and reviews are essential for ensuring the ongoing accuracy and integrity of the system, and for identifying any areas of weakness or potential fraud. The document also notes that audits and reviews should be conducted by independent personnel, and that the results should be reported to the appropriate authorities.

6. The sixth part of the document discusses the importance of maintaining a clear and concise record-keeping system. It states that the system should be designed to be easy to use and understand, and that it should be able to handle a large volume of transactions. The document also notes that the system should be able to generate reports and summaries that are easy to read and interpret, and that it should be able to provide a clear and concise overview of the system's performance.

7. The seventh part of the document discusses the importance of maintaining a secure and confidential record-keeping system. It states that the system should be protected from unauthorized access or disclosure, and that it should be able to detect and prevent any attempts to tamper with the records. The document also notes that the system should be able to provide a clear and concise overview of the system's security and confidentiality status.

8. The eighth part of the document discusses the importance of maintaining a clear and concise record-keeping system. It states that the system should be designed to be easy to use and understand, and that it should be able to handle a large volume of transactions. The document also notes that the system should be able to generate reports and summaries that are easy to read and interpret, and that it should be able to provide a clear and concise overview of the system's performance.

9. The ninth part of the document discusses the importance of maintaining a secure and confidential record-keeping system. It states that the system should be protected from unauthorized access or disclosure, and that it should be able to detect and prevent any attempts to tamper with the records. The document also notes that the system should be able to provide a clear and concise overview of the system's security and confidentiality status.

10. The tenth part of the document discusses the importance of maintaining a clear and concise record-keeping system. It states that the system should be designed to be easy to use and understand, and that it should be able to handle a large volume of transactions. The document also notes that the system should be able to generate reports and summaries that are easy to read and interpret, and that it should be able to provide a clear and concise overview of the system's performance.

11. The eleventh part of the document discusses the importance of maintaining a secure and confidential record-keeping system. It states that the system should be protected from unauthorized access or disclosure, and that it should be able to detect and prevent any attempts to tamper with the records. The document also notes that the system should be able to provide a clear and concise overview of the system's security and confidentiality status.

12. The twelfth part of the document discusses the importance of maintaining a clear and concise record-keeping system. It states that the system should be designed to be easy to use and understand, and that it should be able to handle a large volume of transactions. The document also notes that the system should be able to generate reports and summaries that are easy to read and interpret, and that it should be able to provide a clear and concise overview of the system's performance.

13. The thirteenth part of the document discusses the importance of maintaining a secure and confidential record-keeping system. It states that the system should be protected from unauthorized access or disclosure, and that it should be able to detect and prevent any attempts to tamper with the records. The document also notes that the system should be able to provide a clear and concise overview of the system's security and confidentiality status.

14. The fourteenth part of the document discusses the importance of maintaining a clear and concise record-keeping system. It states that the system should be designed to be easy to use and understand, and that it should be able to handle a large volume of transactions. The document also notes that the system should be able to generate reports and summaries that are easy to read and interpret, and that it should be able to provide a clear and concise overview of the system's performance.

15. The fifteenth part of the document discusses the importance of maintaining a secure and confidential record-keeping system. It states that the system should be protected from unauthorized access or disclosure, and that it should be able to detect and prevent any attempts to tamper with the records. The document also notes that the system should be able to provide a clear and concise overview of the system's security and confidentiality status.
