Lubbock, TX 79424

Dear Operator:

We have received a C-103 dated November 12, 2002, in which you indicated your plans to return the following well to production status and remove it from injection status. You indicated that work would begin in December 2002.

This letter is to notify you that the injection authority for the South Red Lake Grayburg Unit #6 (30-015-00618) (F-35-17S-27E) is terminated as of the date of this letter and the well is considered to be returned to production.

Sincerely,

Gerry Guye  
Compliance Officer  
NMOCD District II – Artesia
