- ☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection

Run mechanical integrity test

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

As per our approved program for TA'd wells on the South Red Lake Grayburg Unit, the following is the anticipated procedure for running a mechanical integrity test on well No. 32. This work should be accomplished sometime during the week of November 26, 1990.

1. Notify BLM of exact time for MIT, 24 hrs. in advance.
2. Run packer and tubing and set packer at 1,530'.
3. Pressure test tubing-casing annulus to 500 psi and hold for 15 minutes.

14. I hereby certify that the foregoing is true and correct
