DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We wish to drill this well to approximately 400 feet with cable tools. 390 feet of 7" seamless casing will be run. Engineer's plat of location attached.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
