Dear Mr. Yates:

An inspection was made of the site of the subject plugged and abandoned well on January 11, 1971. Said inspection revealed the following items which must be completed before the final Plugging Report, Form C-103, may be approved.

1. Removal of tanks, heater, casing and tubing should be completed.
2. Fill around the marker is settling into the cellar and should be built up.
3. The small amount of junk around the location must be removed or buried.

Very truly yours,

OIL CONSERVATION COMMISSION
