(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Artesia, N. Mex. July 9, 1958

Aztec Federal
Well No. 1 is located 2310 ft. from N line and 2310 ft. from E line of sec. 15
SW NE Sec. 15 17S 2SE NMPM
($\frac{1}{4}$ Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Red Lake Eddy New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill a well to test the Grayburg-San andres formation and not to exceed a depth of 2000 ~~feet~~ feet.

We propose the following casing program.
10 3/4" set at approx. 120' to shut off surface water.
to be pulled.
8 5/8" set at approx. 400' cemented with 50 sacks.
7" set through Red Sand at approx. 1200', to be pulled.
5 1/2" oil string to be cemented with 100 sacks if we get production.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
