## WORLDWIDE AIRLINES

The following table shows the number of passengers carried by the world's airlines in 1998.

The table shows that the number of passengers carried by the world's airlines in 1998 was 1.5 billion. This is a significant increase from the 1.2 billion passengers carried in 1997. The increase is due to a number of factors, including the growth of the airline industry, the increase in the number of flights, and the increase in the number of passengers per flight.
