Midland, Texas

Attention: Mr. Richard Turner

Gentlemen:

I am returning the Form C-122 filed on the Chambers & Kennedy, Gulf State No. 1, P-22-178-28E, NMFM, for the following reasons:

1. You did not indicate the prover or orifice sizes or the gage pressures.
2. The 24-hour coefficients do not appear to have been taken from the New Mexico Back Pressure Manual.
3. The temperature, Gravity or Compressability factors cannot be reconciled with those in the New Mexico Back Pressure Manual.
4. The  $P_w/P_s$  drawdown calculation is in error.

I am enclosing a New Mexico Back Pressure Manual and supercompressibility tables for your use. This test should be calculated and reported as shown therein. Please note that only three testing devices are approved for testing as stated in Rule 7 of the Rules of Procedure.

Very truly yours,

ELVIS A. UTZ  
Gas Engineer

INVESTIGATION OF THE CASE OF THE "MURDER OF THE PRESIDENT"  
 The first step in the investigation of the case of the "murder of the president" was the identification of the person who was the subject of the investigation. This was done by the use of the following methods:

1. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
2. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
3. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
4. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
5. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
6. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
7. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
8. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
9. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
10. The use of the "MURDER OF THE PRESIDENT" as a key word in the search for information.
