FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

While running numerous Gas-Oil ratio tests for annual survey on this well during the past two weeks, we have been unable to get the well to consistently produce more than 2 BOPD. As we cannot economically pump 2 BOPD from this depth, we propose to shut the well in and request that the allowable be cancelled effective July 1, 1964. When a decision is reached as to remedial possibilities we will forward additional C-102's.
