17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Our records show that the well was plugged back to 2388' with lead wool and cement, approximately 700' of casing was pulled, and a plug was set in top of the casing.

It is intended to plug this well with a 23 sx. plug based at a depth as deep as we can get, another from 250' to 350', and a 10 sx. plug at surface with dry hole marker. Heavy mud will be used between plugs.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
