**Re-entry and clean out operations began March 26, 1975. Marker was removed and clean out was started by bailing mud down to 1800 feet. Mud thickened and bailer would not fall. Tools were rigged up and clean-out continued to 2,150 feet. Shut down clean-out to let well drain and clean up. Intend to test well by bailing to determine potential of well at a later date.**
