The above well was shut-in on October 1, 1973. The well was shut in because it is a high GOR well. The allowable was transferred under NMOCC Orders R-4548, R-4549, R-4549A, R-4549B. Holding for secondary recovery and as a pressure observation well. The status of this well is subject to change as the producing characteristics of the unitized area changes. No estimated date of change in status. This well is part of the Empire Abo pressure maintenance project per OCC Order No's. R4548, R4549 & as amended. Request on extension of present status.
