Atten : Mr. Gressett:

Mr. Gressett:

I am in receipt of a letter from your office No. 2132 X, dated 8/11/75. In the letter from your office, it states that our allowable has been cancelled because we have failed to report our monthly operations from May thru August of 1975 for the Delhi "A" State #1D, 33-17-28. This is very incorrect as you will notice by reveiwing the attached copies of the Monthly Operator's Report for May and June of this year. As for July and August, July is due at the end of this month and August is not over. As far as I know all reports due to this date has been sent to your office at the same address on the top of the letter mentioned above. At the same time the originals were sent to Santa Fe. And copies were sent to Amoco Prod. Co., Phillips Petroleum and Gray Pumping Service. If there is anything else that was not done that would have caused this cancellation besides the one mentioned above, please advise.

Yours very truly,

Kathleen Gaddy
