Gentlemen:

Paragraph (a) Rule 301, Commission Rules and Regulations, states in part that "Each operator shall take a gas-oil ratio test not sooner than thirty days, nor later than sixty days, following the completion or recompletion of an oil well." Therefore, your form C-116 (Gas-Oil Ratio Report) dated April 4, 1960, submitted for the subject well, cannot classify as a completion test as the well was completed March 29, 1960. We call this situation to your attention in order to prevent the possibility of allowable cancellation due to failure to take and submit the completion GOR at the proper time.

If you have any questions concerning this matter do not hesitate to call me.

Very truly yours,

OIL CONSERVATION COMMISSION
