

John M. Crumley
PETROLEUM
710-11 FIRST NATIONAL BANK BLDG.
Albuquerque, N. M.
February 24 - 1940

Mr. Roy Yarbrough
Oil Conservation Commission
Hobbs, New Mexico

Dear Roy:

Enclosed herewith you will find Driller's Daily Report covering period from January 16, 1940 to and including FEBRUARY 7, 1940, representing a depth of 2778'. However, we are now drilling below the 3000 foot level and it is my intention to carry the drilling on to 3250', unless conditions should present themselves to change my mind.

I trust this report meets with your approval, and I shall forward log of operations up to present time within the next few days.

Wishing you everything good, I am

Yours very truly,

John W. Crumley
