FULL DETAILS OF PROPOSED PLAN OF WORK
 FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We encountered fresh water at 298 feet. We ran 8 1/4 inch casing and are under reaming. Still carrying the pipe and our bottom now is 535 feet. Had a little difficulty, slipped a collar but are coupled up and running again now. Will set pipe at 575 feet. We have had streaks of gyp and salt water all the way down to 505 feet where we encountered a little sulphur water. Our reason for setting pipe at 575 feet is to be sure and be below the water.
