If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

This well is part of an active waterflood unit. We are presently expanding our waterflood pattern with a workover on the E. High Lonesome #4. We plan to evaluate the results of this project and should make a decision within 12 to 18 months on how best to utilize this well. We request that this well remain shut-in until this decision can be made.

18. I hereby certify that the foregoing is true and correct
