(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to plug and abandon the above well as follows:

1. Pull tubing.
2. Spot 100' plug from 2047'-1947' to cover open hole section, 2047'-2019'.
3. Perforate 4 holes @ ~~892'~~ ^{1027'}, ~~Base of Salt~~ ^{Top of Yates}, and squeeze 55 sacks cement into formation.
4. Perforate 4 holes @ ~~445'~~ ^{420'}, ~~Top of Salt~~ ^{25' above}, and squeeze 55 sacks cement into formation.
5. Perforate 4 holes @ 350', water zone, and squeeze 55 sacks cement into formation.
6. Set 10 sack surface plug.
7. Erect permanent well marker.

18. I hereby certify that the foregoing is true and correct

Re: Permanent Abandonment

Well: No. 18 Brewer

CONDITIONS OF APPROVAL

1. Plugging operations authorized are subject to the attached "General Requirements for Permanent Abandonment of Wells on Federal Leases".
2. The Artesia office (Telephone (505) 746-9838) is to be notified in sufficient time for a representative to witness all plugging operations.
3. Blowout prevention equipment is required.
4. In addition to normal filling of pits and cleanup of location, additional surface restoration work may be required, i.e. ripping of pad and/or access road, reseeding, etc. We have asked the Bureau of Land Management for the surface restoration requirements for this well and we should be able to furnish you these requirements within 30 days. After plugging the well and before making final clean-up, you should contact this office unless you have already been advised as to what additional surface restoration work is required.
