Shut-in Status ☒

(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

This well is still in an active waterflood unit and we are studying the possibility of infill drilling. We request additional shut-in time on this well as it may be used for production or injection at a later date.

Well was shut in August, 1973 for economical or mechanical reasons.

After feasibility studies are completed work should be commenced within the next two years.
