(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well shut-in July, 1971, due to high water oil ratio. Prefer to leave shut-in until secondary recovery operations are completed to allow returning the well to production if so desired. Any future work on this well would probably be completed in the next year.
