Re: Henshaw Grayburg West  
Simmons Federal No. 2  
Section 24-T16S-R29E

Attention: Mr. W. A. Gressett  
Supervisor, District II

Gentlemen:

Reference is made to your letter of November 21, 1975, indicating that this well will be dropped from the schedule effective January 1, 1976, as a shutin well.

In between your letter and this letter, this well has been worked over by cleaning out frac sand from the bottom and installing rods. We are waiting, at the present time, for the motor to be repaired in order to install the pump jack on this well. When this work has been accomplished and production again is achieved you will be notified.

Very truly yours,

  
Jack L. McClellan
