Re: Simmons Federal
#3-A-26-16-29
Wildcat Queen Pool

Gentlemen:

Regarding the above captioned well, now that it has been completed as a gas well with a 160 acre dedication instead of an oil well with a 40 acre dedication, the footage of 330/N 330/E makes this a non-standard location.

You will need to apply through Santa Fe for a non-standard location approval before an allowable can be approved for this well.

The well will be carried as a Wildcat Queen Pool completion.

Sincerely,

A handwritten signature in cursive script, reading "Les A. Clements".

Les A. Clements
Supervisor District II
