17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is proposed to convert this well to water injection by the following procedure.

Clear out to 2675' if necessary. Run G R/N log and perforate the Premier and Livingston sands as shown on G R/N log. Treat pups with 500 gals mud acid. Run 2 3/8" cement lined tubing with packer and tailpipe. Set packer at approx. 2300' with tailpipe to 2665'. Place well on injection. Work to start approx June 23, 1969.

Commission order NO. R-3756 authorized us to inject water into the Forest Pool.

18. I hereby certify that the foregoing is true and correct
