NOTICE OF INTENTION TO ABANDON WELL			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

April 16, 1946

Well No. 3-B is located 660 ft. from N line and 1990 ft. from E line of sec. 34MDA 34 16 002 NALP
(4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)Forest Edwy New Mexico
(Field) (County or Subdivision) (State or Territory)The elevation of the derrick floor above sea level is 3463 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Cemented 8-5/8" casing at 388' with 50 sacks of cement March 10, 1946. After 72 hours the plug was drilled, and the hole tested dry by bailing.

Mar. 30, 1946

7" casing was cemented at 1040' with 30 sacks of cement in order to shut off Red Sand water. As this job was not successful, an attempt was made to obtain a water shut-off by squeezing 10 sacks of cement at 1040'. This job was also unsuccessful and the well is now drilling ahead below 2235' with a hole full of water.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
