17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

It is proposed to convert this well to water injection by the following procedures.

Clean out to TD (2561') and drill to a new TD of approx. 2636' (75'). Run GR/N log and run 2 3/8" cement lined tubing with packer and tailpipe. Set packer at approx. 2490' with tailpipe to approx 10' above TD. Place well on injection. Work to start approx June 26, 1969.

Commission Order NO. R-3756 authorized us to inject water into the Forest Pool.

18. I hereby certify that the foregoing is true and correct
