LOG OF OIL OR GAS WELL

LOCATE WELL CORRECTLY

LOCATE WELL CONNECTION

Company John H. Trigg Address P. O. Box 5629 Roswell, New Mexico

Lessor or Tract Federal "D" Lease Field West Henshaw State New Mexico

Well No. 6-9 Sec. 9 T. 16S R. 30E Meridian N.M.P.M. County Eddy

Location 660 ft. ^{IN}S of N. Line and 1980 ft. ^{EX}W of E Line of Section 9 Elevation 3815
(Derrick floor relative to sea level)

The information given herewith is a complete and correct record of the well and all work done thereon so far as can be determined from all available records.

Signed James W. Webb

Date September 9, 1957 Title Geologist

The summary on this page is for the condition of the well at above date.

Commenced drilling August 4, 1957 Finished drilling September 1, 1957

CASING RECORD

No	Size casing	Weight per foot	Threads per inch	Make	Amount	Kind of shoe	Cut and pulled from	Perforated		Purpose
								From—	To—	
10	3 1/4"	12#		J-55	480	Texas Pattern	128'			Surface
8	5 1/2"	12#		J-55	2100	Texas Pattern	128'			Surface
These 11 holes or packages were put in to test for water, gas, kind of material, depth, bottom, and range of bearing or position of the well. It was found that the well was not water bearing, but gas bearing. The gas was found to be in the zone of the well and the casing was found to be in the zone of the well. The casing was found to be in the zone of the well and the casing was found to be in the zone of the well. It is of the greatest importance to have a complete picture of the well. Please state in detail the date of completion, location, and other data.										
HISTORY OF OIL OR GAS WELL										

MUDDING AND CEMENTING RECORD

	Size casing	Where set	Number sacks of cement	Method used	Mud gravity	Amount of mud used
MARK	10 3/4"	487'	50	Pump		
	8 5/8"	2133		Pump	Heavy	15 Sacks

CASING RECORD

[illegible]

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "widered" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or balling.
